

GamiPress-Social-Fake-Events (FOMO)

The add-on connects to the Gamipress plugin.

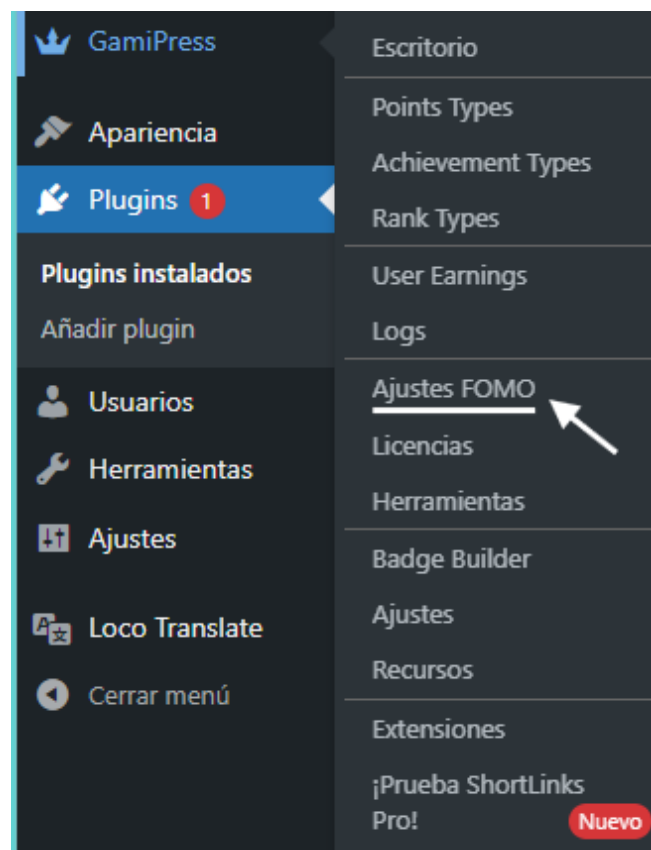

The add-on acts as a FOMO (Fear Of Missing Out).

How do I use the add-on?

1. The add-on must be activated at the same time as the Gamipress plugin.

☐	GamiPress Ajustes Desactivar Traducir	El sistema de ludificación más flexible y potente para WordPress. Versión 7.7.2 Por GamiPress Ver detalles Extensiones
☐	GamiPress - Social Fake Events Desactivar Traducir	add-ons that display events that happened to fake users. Versión 1.0.0 Por GamiPress Visitar la web del plugin

2. To access the «**FOMO Settings**», follow this sequence in the menu: GamiPress→FOMO Settings.

3. Achievements, points, and ranks must be created in Gamipress plugin.

Ajustes FOMO

For FOMO to function properly, you must have at least one rank, one achievement, and one points type created in GamiPress.

If a user does not have an avatar, the message is still displayed, but not in the recommended way.

We created the type of points

Edit Points Type

[Add New Points Type](#)

Tipo de puntos guardado correctamente.

Datos de tipo de puntos

Nombre singular

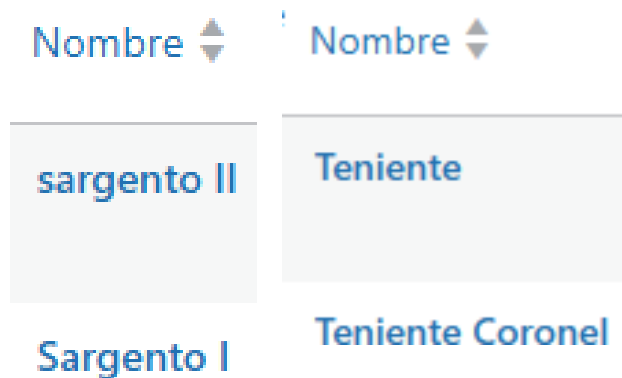

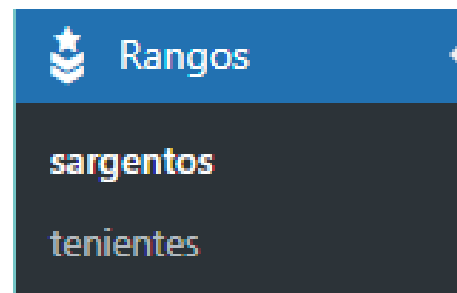

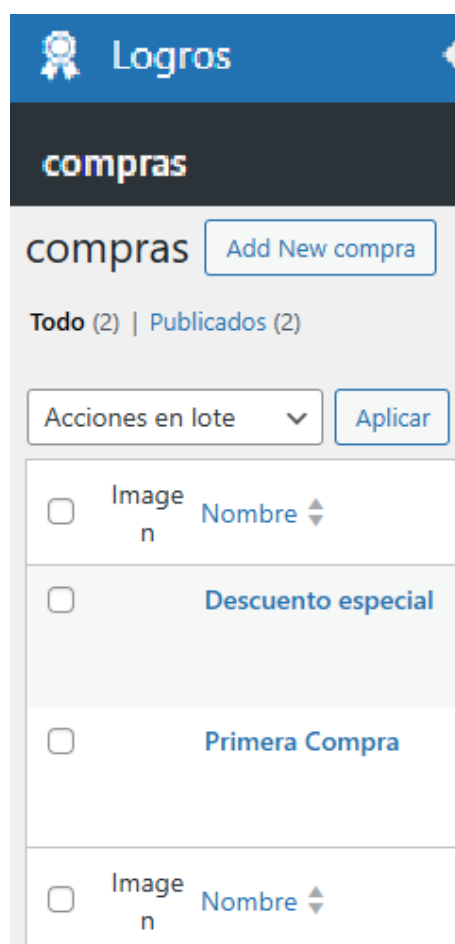

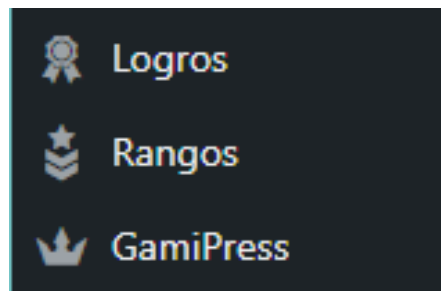

Nombre plural

Slug

Now we will create the achievements and ranks

After creating everything, this message will be displayed in FOMO settings.

Great news! FOMO is now working perfectly.

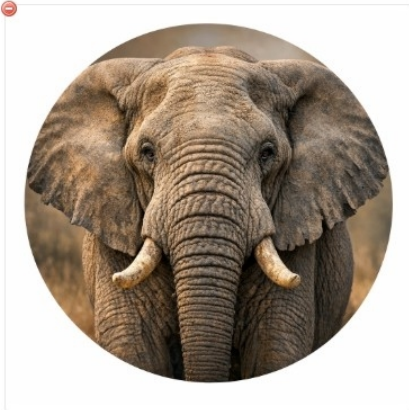

4. Now we create the users so that FOMO works.

If a user does not have an avatar, the message is still displayed, but not in the recommended way.

6. Display on the website

Add a shortcode
with the content:

[/] Shortcode

[FOMO]

Example:
There are a total of 3 users
Pedro, Alberto and Marta.

Possibles messages:

Default

Pedro just won an award

Achievements

Alberto unlocked **Descuento especial**

Points

Pedro won **23742 monedas**

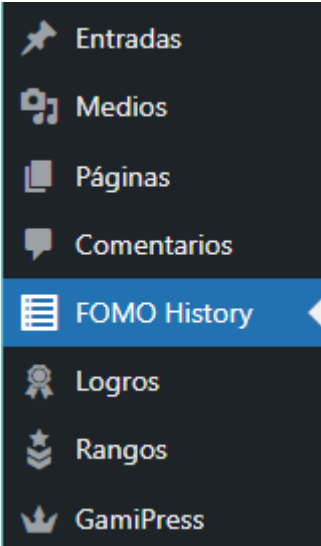

Ranks

Marta unlocked **sargento II**

7. The add-on also has a history of displayed messages.

The history is located in the menu bar.

This is the table that shows the history of displayed messages.

FOMO History

Here is the history of messages shown to users

Delete History
